

caring, client-centered care.

## 9.1 Criterion

Formulate a plan for high-quality, client-centered care that includes interdisciplinary professionals, evaluations of interventions performed and of client's overall health status.

### 9.1.1 Instrument/Measurement

JR 2 Child Adult Nursing Major Care Plan Instructor Rubric

*Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).*

9.1.1 - JR 2 CA2 Major Care Plan Instructor Rubric

#### 9.1.1.1 Population

Students enrolled in NRS 3218 Child Adult Nursing II in the third semester of the nursing program.

#### 9.1.1.2 Standard

Of the students enrolled in the cohort, 95% will successfully pass their final care plan with an 80% or higher, on the first attempt.

#### 9.1.1.3 Data Table (Results)

The Spring 2020 semester would have been the first semester to collect this data.  
ND\_COVID19

#### 9.1.1.4 Analysis

- "Due to the COVID-19 event and the move to fully online teaching after spring break, Spring 2020 data collection was suspended. The answer to the five assessment analysis questions: 1) Met/Not Met? 2) Student performance in relation to this standard? 3) Reasons for student performance? 4) Longitudinal comparison? 5) Data-driven decisions based on this instrument? UNKNOWN due to lack of data."

## 9.2 Criterion

Successfully communicate and/or perform the high-quality, client-centered care, to include the advocating for and educating of the client and families.

### 9.2.1 Instrument/Measurement

ECU School of Nursing Clinical Performance Evaluation Form A or B

(A) Current form - being used at the Durant campus

(B) Newly designed form - being used on the Ada campus along with newly designed clinical paperwork.

After the first year of use, clinical paperwork results to be evaluated, to include input from clinical instructors, to help determine if we will continue to use the old version or if we will change to the new version of the forms throughout the program, and if we do change, what revisions need to be made.
